## Communication during camp

Campers will not be encouraged to call home since it is a short day and is filled with activities, except for emergencies.

## Safety

The main concerns during training are dehydration, and soccer related injuries such as ankle sprains, knee sprains, and accidental events such as tripping, being hit by a ball etc.

To address these issues, various steps will be taken in the structure and set up of drills so as to minimize or prevent such accidents.

1. Coaching staff utilizes numerous water breaks.
2. We leave all our belongings at the pavilion.
3. At FSMA we discourage excessive tackling.
4. Campers are encouraged to bring their own water bottles.
5. We discourage shooting on arrival unless organized and supervised by camp staff.
6. We teach and encourage respect of self and respect of others.
7. We ask campers and staff to always be aware of others to avoid unnecessary injuries.
8. Common sense, organization, and structure are the basic tools of prevention. We make the effort to ensure their availability and abundance without stifling fun and creativity.

## Discipline Policy

**We do not accommodate rudeness and disrespect under any circumstance.**

Foul and abusive language is not tolerated. **Rude and disrespectful campers will simply be sent home and not invited back to camp.** Campers will be informed of this rule at orientation. We want to build an environment where children enjoy being at. Ferdie's Soccer Magic program is fun for kids because of our commitment to this policy.
